About Us

We at KEC Engineers (REGD) Delhi manufacture all kinds of water pumps assembly to fulfill various needs our renowned customers. It has been since long we are into manufacturer of a unique technologically advanced product with innovative designs providing satisfaction to our customers with in and outside our country. Further, we give highest value to our customer requirements and do everything possible to provide them complete satisfaction with fast and efficient action. All our products are produced using the most advanced manufacturing techniques from initial development till completion.

Our Policy :

We aim to achievers in development and supply of customer focused and high quality water pump assembly for domestic and international markets through continual up gradation of product process and technology. It is by sheer dedication to the trust of the millions of our customers across the country that we continue to evolve into newer variants and work tirelessly to achieve perfection in new customizations.

Foolproof Leak Testing :

100% leak testing is performed at various stages of water pump manufacturing process Employing "PNEUMATIC PRESSURE DECAY METHOD" AS WELL AS" BUBBLE IMMERSION METHOD"

Our Product :

"KTC" brand water pump assemblies having utility application for Earthmovers, Generator, DG sets Transit Mixer, Tractor, Automobiles and many other depending upon customer requirements.
